

Induction Anywhere

- Induction Anywhere: Built into a tabletop unit (shown here) or create a full buffet station or table using specified finishes
- Warmers only engage when induction-ready vessels are placed on the stone surface; Remove vessels and units deactivate
- Any non-induction presentations will NOT activate the warmers and can be placed side by side with activated vessels
- Warming units remember last used wattage settings

- Add as many induction units as desired based upon current electrical availability or add a lithium power station for portability
- Explore your culinary capabilities with daily versatility
