

# FlexBar FAQs

LION'S WOOD  
BANQUET FURNITURE

## *Are the casters locking?*

Yes. The bar includes 5 locking swivel casters with a foot brake release.

## *Does it ship in a folding position?*

Yes. The bar ships in a collapsed format that can be rolled off the provided crate ramp.

## *Is there a weight limit on the shelves?*

There are two work deck shelves that can be utilized independently and support 110lbs of weight.

## *What's the material?*

The FlexBar frame is crafted from powder coated aluminum. The counter top, front & side panels, and work deck are constructed from galvanized steel.

## *Is the bin opening standard food pan size?*

Yes.

## *Are there issues with scratching?*

Powder coated and galvanized steel may scratch. A great touch up solution would be a sharpie to fill in any scratches.

## *What is the total weight?*

The assembled product weighs 252lbs yet rolls with ease.

## *Will the FlexBar be inventoried in the US?*

Yes. The all-black model is available and in stock.

## *Does it 'lock' in a folded position?*

Yes. There is a locking pin and lanyard that maintains the stored position.

## *Could the top be field laminated with standard LP colors?*

The goal was to utilize surfaces that will hold up during bar service. We do not have laminate surfaces at this time.

## *If one counter is up, is everything still structurally sound?*

Yes. The work decks work independently without compromising stability.

## *Is LED lighting a standard feature?*

LED lights will be available for an extra fee and the purchase will include a set of four light fixtures.

## *Does it ship in a crate?*

Yes. Each FlexBar is individually crated and includes a ramp for easy unloading.

## *How do we replace spare parts, if needed?*

Parts will be available at Lion's Wood.
